

How to Set Up EKM

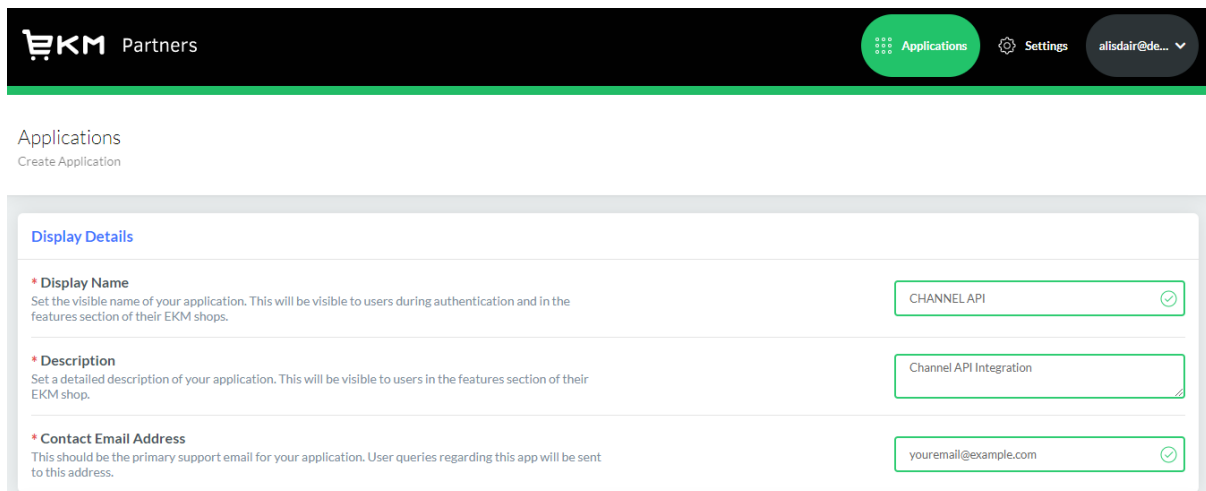

1. Go to the URL: <https://partners.ekm.net/Account/Login>

And sign in with your **EKM Partner Account**.

2. Please click the **Create Application** button.

+ Create Application

3. Then, fill in the Display Name, Description, Contact Email Address fields.

The screenshot shows the 'Create Application' form in the EKM Partners interface. The form is titled 'Applications' and 'Create Application'. It contains three main fields: 'Display Name', 'Description', and 'Contact Email Address'. Each field has a text input box and a green checkmark icon indicating successful input.
