

# Bol.com

To add a Bol sales channel on Despatch Cloud, you must have the login credentials for it. As you can see in the picture below, there are some fields like **Client ID** and **Client Secret** that you need to obtain from your Bol store.

Untitled.png or type unknown

These credentials can be obtained through the **Seller Dashboard (SDD)**. In order to create these credentials follow the steps below:

1. Log in to the **Seller Dashboard**,
2. Open the settings page, and find the section called "**API Instellingen**"

sdd-api-settings1.png or type unknown

3. Fill in the details of the technical contact (**Technisch contactpersoon**) and click on "**Opslaan**" to save.

sdd-create-credentials1.png or type unknown

4. After saving the technical contact information, new sections will be available to create credentials. Press the "**Anmaken**" button.

sdd-create-credentials2.png or type unknown

5. After clicking on "**Anmaken**", a dialog window will be opened. Enter a name for the credentials in the field.

6. Press the blue button "**Ja, voeg toe**" to create the credentials.

sdd-create-client.png or type unknown

The newly created credentials should now show up in the list.

7. To get the full set of credentials, click the "**Toon secret**" link below the "**Client ID**". A popup window will open containing the "**Client Secret**".
